CLEAR NEW FRAGRANCE
100 ML ONLY 69 Euro

The Transparent OLED Pop-Up Screen 55 H is the ultimate eye-catcher for trade fairs, events, showrooms and digital signage shop installations.

The transparent display technology makes it possible to link digital content with the real objects behind to create a completely new 3D experience and to inspire the viewer with an unforgettable wow effect. The display impresses with its high transparency and at the same time brilliant and high-contrast colour representation.

The Transparent OLED Pop-Up Screen 55 H is optionally available with a precise Multi-Touch surface. Further options such as steplessly adjustable LED lighting and a brilliant sound system complete the impressive presentation experience.

In contrast to conventional transparent display steles, the Transparent OLED Pop-Up Screen 55 H is already completely pre-assembled in the elegant, robust and electrically operated lift housing.

This sophisticated design as a convenient plug-and-play presentation system allows uncomplicated use without time-consuming on-site installation and thus saves time and personnel costs at trade fairs and events.
